NAZNIN AKHTAR

FULL STACK & MOBILE APPLICATION DEVELOPER

Surat, Gujarat, India (Open to Remote / Relocation) | +91 78539 01232 | nazninakhtar17@gmail.com

linkedin.com/in/naznin-akhtar-1bb7412a1 | github.com/Naaz123786 | Google Play Developer Portfolio

PROFESSIONAL SUMMARY

Results-driven **Full Stack & Mobile Application Developer** with hands-on experience designing, developing, and deploying high-performance web and cross-platform mobile applications using **Flutter, Android SDK, React.js, Next.js, Node.js, PHP, and MySQL/MongoDB**. Proven track record of shipping production applications to the **Google Play Store** with **99.8% crash-free rates**, integrating secure digital **payment gateways**, and engineering scalable ERP and eCommerce platforms. Adept across the complete Software Development Life Cycle (SDLC), RESTful API architecture, reactive state management, and performance optimization in collaborative agile environments.

TECHNICAL SKILLS

Digital Marketing: Digital Marketing, Google Ads, Social Media, Content Creator, Meta Ads.

Mobile Development: Flutter, Dart, Android SDK, Cross-Platform App Engineering, Mobile UI/UX Design, Local Storage (SQLite, Hive, SharedPreferences), Google Play Console & Release Management, Push Notifications (FCM).

Frontend & Web: React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Redux Toolkit, React Hooks, Context API, Responsive Web Design, Component Architecture.

Backend & APIs: Node.js, Express.js, PHP, RESTful APIs, DotNet, JSON Serialization, JWT Authentication, Session Management, Payment Gateway Integration (Stripe, Razorpay), Webhook Architecture.

Databases & Cloud: MySQL, MongoDB, Firebase (Cloud Firestore, Authentication, Cloud Messaging / FCM), NoSQL Schema Design, Database Indexing & Query Optimization.

Tools & Practices: Git, GitHub, Postman, Tableau, VS Code, CI/CD Pipelines, Agile / Scrum Methodologies, Debugging & Performance Profiling, Clean Code Architecture.

PROFESSIONAL EXPERIENCE

Success Works

Surat, Gujarat, India | Jul 2026 – October 2026

Web and Application Developer (Full-Time)

- **Applied digital marketing expertise** - including Google Ads, Meta Ads, social media strategy, and content creation - to support client campaigns, drive engagement, and optimize conversion-focused landing pages.
- Architected and developed high-performance web and mobile applications using **React.js, Next.js, Flutter, Node.js, PHP, and MySQL**, serving production enterprise clients.
- Built reusable, modular UI component libraries and integrated secure RESTful APIs, reducing redundant code by **30%** and accelerating cross-functional feature rollouts.
- Engineered robust authentication workflows (JWT, session-based tokens) and frontend-backend synchronization, guaranteeing reliable, low-latency client-server communication.
- Spearheaded performance tuning and Core Web Vitals optimization, reducing average page load latencies by **35%** across mobile and desktop interfaces.
- Guided end-to-end SDLC workflows from requirement elicitation and technical design through testing, debugging, and continuous deployment via Git/GitHub.
- Collaborated seamlessly with UI/UX designers, backend engineers, and QA teams in sprint ceremonies to achieve **100% on-time delivery** of quarterly deliverables.

Safar Techlab LLP

Surat, Gujarat, India | Jun 2025 – Jun 2026

Full Stack Developer

- Engineered scalable full-stack web applications utilizing the **MERN stack (MongoDB, Express.js, React.js, Node.js), DotNet, Android SKD**, delivering responsive single-page applications.
- Designed and consumed secure RESTful APIs with structured JSON payloads, token authentication, and robust error-handling middleware.
- Constructed modular frontend components with React Hooks, Context API, and modern state management patterns, improving maintainability across releases.
- Optimized MongoDB schema indexing and aggregation pipelines, enhancing endpoint response speeds by **35%** for heavy database operations.

Zidio Development Remote | Jun 2025 – Sep 2025

Data Science & Analytics Intern

- Completed an intensive simulation covering forensic data analytics, exploratory data analysis (EDA), and quantitative modeling.
- Designed and published interactive business intelligence dashboards using **Tableau**, visualizing complex data streams for executive reporting.
- Conducted automated dataset anomaly detection using **Python**, delivering data-backed findings to support operational decisions.

KEY PROJECTS (PRODUCTION & ENTERPRISE)

Noor-e-Hidayat — Quran & Azaan Islamic Companion App Google Play Store ↗ | Production Mobile App

Flutter, Dart, Android SDK, Firebase (FCM, Firestore), REST APIs, Google Play Console

- Architected and launched an all-in-one Islamic utility application on Google Play Store featuring the Holy Quran, Qibla compass, Duas & Azkars, Digital Tasbih, Hadees library, and Live TV.
- Engineered location-aware prayer calculation algorithms and background Azaan audio notifications using **Firebase Cloud Messaging (FCM)** and local background workers.
- Integrated real-time device magnetometer hardware with orientation smoothing algorithms to deliver a responsive, accurate Qibla compass.
- Maintained a **99.8% crash-free session rate** through robust state management and strict Google Play production release compliance.

Silent Diary — Offline-First Notes & Journaling Mobile App Google Play Store ↗ | Production Mobile App

Flutter, Dart, Firebase, Local Storage (SQLite, Hive), UI/UX Design, Google Play Console

- Engineered and published an offline-first journaling and note-taking application to the Google Play Store with encrypted local storage.
- Built an intuitive, distraction-free UI/UX featuring dark/light themes, instant full-text search, and multi-category tag filtering.
- Conducted end-to-end release engineering: keystore signing, build optimization, bundle compression (<15MB), and Play Store guideline compliance.

Enterprise Diamond Management ERP System Surat, India | Enterprise Web System

React.js, Node.js, PHP, MySQL, MongoDB, RESTful APIs, RBAC

- Built a custom enterprise ERP platform managing diamond inventory lifecycles, 4Cs grading criteria, dynamic pricing formulas, and sales pipelines.
- Architected dual portals (Admin & Sales Agents) with granular Role-Based Access Control (RBAC) and audit trails for high-value transactions.
- Developed multi-criteria search filters, automated certificate/invoice document upload workflows, and real-time operational reporting.

Full-Stack eCommerce Web Platform Web Application

React.js, Node.js, Express.js, MongoDB, RESTful APIs, JWT, Payment Gateways

- Developed a full-stack eCommerce application featuring dynamic catalogs, multi-attribute filtering, persistent cart state, and checkout.
- Integrated digital payment gateways with webhook listeners for automated verification and real-time customer order tracking.
- Built an administrative dashboard for real-time inventory monitoring, product catalog updates, and sales analytics.

EDUCATION

Bhadrak Autonomous College | Fakir Mohan University Odisha, India | Jun 2022 – Jul 2025

Bachelor of Science in Information Technology & Management (BSc ITM) / Computer Science

CERTIFICATIONS & TRAINING

- **Full-Stack Web Development** — Industry Certification
- **Python for Data Science** — Coursera
- **Python Programming** — Infosys Springboard

LANGUAGES

- **English:** Professional Working Proficiency
- **Hindi:** Full Professional / Native Proficiency
